Our Story

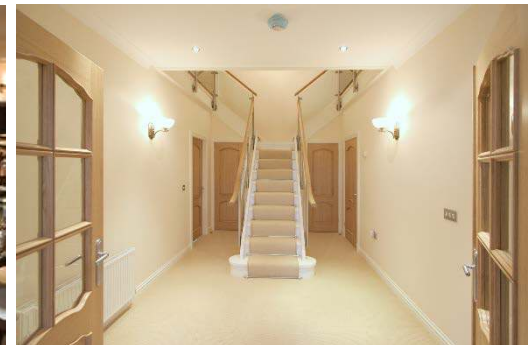

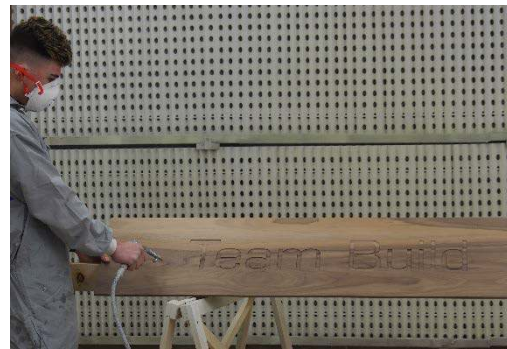

As part of the continued growth and expansion of Team Build Construction Ltd, and the move to our new site, Team Build Joinery & Interiors was formed to compliment the existing construction business.

The new 5,200 sq. ft area includes a fully functional joinery workshop, with spray booth facilities and state of the art machinery.

As a result, Team Build Joinery can now provide additional high-end quality services to existing and new clients. We operate out of our newly renovated factory in Cramlington, Northumberland, where we can provide you with a quality service that provides and bestows confidence and peace of mind. We use traditional skills, alongside advanced technology, to provide our clients with a first-class service.

Our craftsmen are highly experienced and extremely committed to providing quality workmanship in all areas of our services that we offer.

Team Build Joinery recognises the importance of environmental protection and is committed to operating its business responsibly and only using responsible sources for its procurement of timber.

Reception Desks

The reception is arguably the most important area of a building. It is the first place visitors see and is where first impressions are formed.

We can cater for any project size and provide high quality pieces of furniture that are eye-catching as well as functional and durable.

A whole range of materials and finishes are available including hardwood veneer, matt & glossy laminate panels, glass, granite, Corian, Hi-Macs, stainless steel and acrylics; our trained team are certified Hi-Macs & Corian fabricators which allows us to provide excellent quality finishes to our products.

These can be designed to incorporate graphics, company logos, simple shelving to complex IT and AV equipment with convenient cable management requirements.

Cobalt Business Exchange

Client Cobalt Business Exchange
Highbridge Properties

Architect Seymour Architecture

For this project, Team Build Joinery & Interiors worked alongside Cobalt Business Exchange and our construction arm Team Build Construction to successfully provide a range of bespoke joinery items, for the refurbishment and upgrade of the Lakeside Annexe offices and gym space.

Team Build Joinery supplied and installed bespoke internal doors, cubicles and vanity tops to a high-quality finish, meeting architect's specifications and the client's requirements.

Private Client

Client **Private Client**

Bespoke Joinery Items

For this project, Team Build Joinery & Interiors designed, manufactured and installed a variety of bespoke joinery items including but not limited to:

- Dining table including granite tabletops and inserts
- Coffee tables including granite tabletops and inserts
- Shelving units and display cabinets

As well as these items the client also required tailor made booth seating to fit into an existing space, upholstered along with dining chairs. An image of the Mayon Volcano was also laser cut onto wood and placed onto the end of the kitchen frame.

Bespoke Trusses

Various Clients

Team Build Joinery & Interiors designs, manufactures and installs attractive, bespoke feature trusses and beams that provide an eye-catching, cost-effective way to enhance a building's architectural look and feel in both internal and external spaces.

We use a variety of materials to produce our products and this allows our customers the flexibility to select the best materials to complement the building's natural aesthetics.

New Build

Client Team Build Developments

**Structural
Designers** WSP Buildings

Architect Alston Murphy Architects

This unique design and build is a six-bedroom family house of 3300 sqft, spaced over three floors.

This house incorporates four en-suites, a luxury master bedroom, superb fitted kitchen and boasts a contemporary bespoke glazed staircase, all set within spacious walled gardens.

Unit 39B Colbourne Crescent, Cramlington, NE23 1WB.

Bespoke Alcove Furniture

For this project, Team Build worked with a private client to design and fit bespoke alcove furniture in their home.

The client required a bespoke storage and entertainment solution for the living space of the property. Team Build Joinery & Interiors worked with the client to design, supply and fully install the alcove furniture, finding the perfect solution that was ready to be fully utilised.

Aurora Kitchen

Refurbishment & Restaurant Fit Out

Client Aurora Corporate
Architect Space ID

For this project, Team Build worked with health and fitness company Aurora Athletic on their new venture, Aurora Kitchen. The restaurant incorporates customer seating and a service area, a working kitchen as well as an office, staff room, toilets and a bin store.

The project consisted of the fitting out of an existing area housed within a student accommodation block, transforming it into a restaurant. Team Build Joinery & Interiors created fantastic bespoke bench seating and counter tops for the restaurant.

Library Fit-Outs

Libraries are spaces for study, leisure, research and relaxation. They are also busy workplaces with a strong sense of order and structure. These qualities make for complex design solutions with many specific criteria to work to. At Team Build Joinery & Interiors, we have a confident and dynamic approach to achieving great solutions to satisfy the many demands of such projects and maximising the potential of a frequently used space.

Items we can manufacture and install include bespoke designed reception counters, innovative shelving and storage solutions, wall display stands, desks and seating.

We previously completed a full refurbishment on council multi-purpose facility over a three-story building to include a public library on the ground floor.
